

Reply to calling attention tabled by Hon'ble MLA Yuri Alemao.

Steps the Government intends to take:

1. Currently there is a Central Inspection System (CIS) put in place by the Government for coordinating joint inspections of various departments such as Inspectorate of Factories and Boilers, Commissioner of Labour & Employment, Department of Legal Metrology, and Goa State Pollution Control Board.
2. Other concerned line departments such as Goa-IDC, Directorate of Fire Services etc., will be brought under this Central Inspection System.
3. Further, as and when required, the Departments are already ensuring coordination and conducting joint inspections.
 - a. A joint inspection was carried out between 13-16th March by Goa-IDC and GSPCB.
 - b. A joint inspection was carried out on 17th March 2023 by Goa-IDC, Commissioner of Labour & Employment, and Inspectorate of Factories and Boilers.
4. It shall be ensured that inter-departmental coordination will be further strengthened by incorporating more departments under Central Inspection System.
